

Latvia Startup Visa, Latvia

Startup visa is offered to all non-EU startup founders who are willing to come and kick-off their startup ideas in Latvia. One startup can have up to 5 founders with a startup visa. The application process takes one month. The visa is given for the period of maximum 3 years and it is spouse and children-friendly. The main criteria for getting Startup visa is to have an innovative (most often technology-based) Startup idea, which is easily scalable and yields a high added value. Ideas are submitted online, by filling in an application form and are selected after the evaluation period. Once your startup is registered and settled in, the team can come from abroad (after receiveing a special type of visa reserved for them). Starting from 12th of october 2021, there will be electronic ID card available.
